

## LIVELY DEMAND FOR READY MONEY

Banks Report Local Financial Situation to Be Looking Up Surprisingly.

## WEEK'S BUSINESS OUTLINED

Market of the Immediate Future Promises Active Fluctuations to Be Taken Advantage Of.

The local financial situation is considered good in money circles. The banks report a lively demand for money at stiffening rates; in fact, the demand is a little greater than the supply, enabling bankers to discriminate closely as to loans, and to exact little better rates than for some months past. This is also the case in the east, where offers made by note and bond brokers show better employment for money. As heretofore stated, quotations for money from New York, as they appear in the daily papers, are deceptive. They do not cover ordinary money conditions, but are rather rates for extraordinary conditions. The last government crop report cut down previous estimates somewhat, but yet, the report is highly satisfactory. Of all the people in the country, the farmer is the most prosperous, and as he represents about 60 per cent of the producing energies of the country, when the farmer is prosperous, his condition operates to raise the prosperity of the whole country to a higher level.

## EXPORTS WILL BE LARGE.

The demand for money to move the crops will be considerable, and the probabilities are that money will be well employed this fall. All exports will be large, for just at present, the world's holdings of agricultural products are lighter than usual, and it remains for us to fill up the vacancies. So there is every reason for encouragement. It is interesting to note that in a large trade international balance is due this country, and with the foreign banks well stocked with gold, any substantial advance in money rates here will attract the precious metal, especially as the season of active exports of our grain and cotton is so close at hand. The market of the immediate future promises active fluctuations and will probably be successfully taken advantage of by the nimble trader. The fact should be kept actively in mind, however, that the price-range is high and caution cannot be too strongly urged. A particularly encouraging influence is the continued demand for bonds and the fact that with the scarcity of the exchange, high grade interest is now being shown in the best of the second grade issues.

## IN TRADE CIRCLES.

The lumber trade reports no change in conditions of any importance from the status of the week previous. At the same time business has continued steady and good, with many orders placed, but with no fluctuations as to prices. The hardware trade reports a fine, encouraging week, the features being builder's hardware, sporting goods—particularly in the line of guns and hunting outfits, as the shooting season will soon be here, football, baseball, tennis, golf equipment, with a decreasing amount of fishing tackle as fishing is pretty near over for the season. Automobiles are in great demand than ever, as is the demand for harnesses and saddlery, as well as mantels, tile flooring and wainscoting, ornamental grates. House furnaces are

proving good sellers; so is cutlery—always called for at this time of the year, cutting factory supplies, gas and steam pipe fittings, etc.

## WHOLESALE DRY GOODS.

The wholesale dry goods trade reports no special features locally the past week, although there is a steady output of goods in seasonable lines. Jobbers generally report trade as increasing slowly, with cotton fabrics experiencing a better market than heretofore, with a demand for immediate shipment. The demand for the new cotton crop on prices is causing less concern. Merchants and mills will not accept prices for spring at the level of the past three months, and commission houses say current values will not be much deviated from except in lines where the prices are being held until the jobbing season is further advanced. The bulk of the house trade with buyers is usually active in September, but this season wholesalers are looking for a steady movement all through the month. The demand for bleached goods is steady for spot delivery. Sales of silken and satens for delivery during the next 60 days are reported as heavy. Heavy gray cottons have been moving slowly in the absence of an export demand, and the demand for printed goods just about satisfies the demand. Duck of nearly all kinds is plentiful. Gingham is on a firm basis, with supplies in the market for the finer lines under way. Printed wash fabrics for spring are being ordered slowly. There is a moderate trade in fine goods, with some improvement in the call for printed muslins and white waisting fabrics. Bordered Percales are taken quite freely by retailers, while staple prints are still selling best in the department. Printed muslins are selling rather than most of the other staples, such as Indigos. Staple cotton toweling, linen finished, are in active demand, as well as cotton prints, and the demand for fancy goods and ends that have been selling slowly most of the year. There is an uneven demand for knit goods; spring underwear, lines, drags, but hosiery is somewhat improved. In silk lines, indications point to a successful season, with domestic silks pushing foreign lines. In fact American manufacturers have made such extensive strides in silk manufacture that importations from abroad are steadily falling off. The mills are bringing out more extensive lines of fancies and novelty ideas than has been the case in many seasons. Lines are being added to most every day, on chiffons, taffetas, in soft and lustrous effects, in the newest shades of copper greens, browns, blues and tans. Linen goods are moving briskly, and there is a better demand for both spot and future burlap shipments.

## RETAIL TRADE.

In the retail trade, the feature of the day and the one to fall openings in which the local dealer and window dresser are putting the best foot forward to make the finest display in millinery, ladies' dresses, costumes, yard fabrics, trimmings, lace, embroideries, lingerie, hosiery, shoes, etc. This is the turning point from the summer to the fall trade, and the window is likely to continue in steady swing until the winter Christmas trade comes. The quality of the fall styles is said to be of a higher standard than usual. The window about town are handsomely arrayed, some of the combinations displayed being hardly short of "stunning."

## Get What You Ask For!

HERE is a Reason—Why the Good People of America buy Cascarets as Fast as the Clock Ticks.

Every second one, somewhere, is buying a little Ten-Cent Box of Cascarets.

1, 2, 3, 4, 5, 6—60 times to the Minute, 60 Minutes to the Hour, 3600 Boxes an Hour, 36,000 Boxes a Day of Ten Hours, 1,080,000 Boxes a Month, and then some.

Think of it—220,000 People take a Cascaret tablet each day. Millions use Cascarets when necessary.

The Judgment of Millions of Bright Americans is Infallible. They have been buying and taking Cascarets at that rate for over Six Years.

a true, faithful, loyal servant of Mankind. Over Five Millions of Dollars have been spent to make the merits of Cascarets known, and every cent of it would be lost, did not sound merit claim and hold the constant, continued friendship, Patronage and Endorsement of well-pleased people year after year.

There is also a Reason—Why there are Parasites who attach themselves to the Healthy Body of Cascade's success—Imitators, Counterfeiters, Substitutes.

They are Trade Thieves who would rob Cascarets of the "Good Will" of the people, and sneak unearned profits, earned and paid for by Cascarets.

A Dishonest Purpose means a Dishonest Product and a Disregard of the Purchaser's Health or Welfare.

Beware of the Slick Salesman and his ancient "Just as Good" story that common sense refutes.

Cascarets are made only by the Sterling Remedy Company, and the famous little Ten Cent "Vest Pocket" box is here shown. They are never sold in bulk. Every tablet marked "CCC."

Be sure you get the genuine.

IT FREE TO OUR FRIENDS! We want to send to our friends a beautiful French-designed, GOLD-PLATED, BONUS, hand-stamped in colors, a beautiful, dressing table. Ten cents in stamps is asked as a measure of good faith and to cover cost of Cascarets, with which the duty trinket is loaded.

Send to-day, mentioning this paper. Address Sterling Remedy Company, Chicago or New York.

It is not an Experiment, not an Accident or Incident, but a sound, Honest Business, based on Time-Tried-and-Tested Merit, never found wanting. There is a Reason.

Cascarets are the implacable foe of All Disease Germs; the incomparable cleanser, purifier and strengthener of the entire Digestive Canal.

They Act like Exercise on the Bowels. Muscles, make them strong and active—able to Help Themselves do their work—keep themselves clean.

Cascarets are the safe-guard of Innocent Childhood against the Dreadful Death-dealing Dangers that threaten the Lives of the Little Ones.

They are Purely Vegetable, absolutely Harmless, always Reliable and Efficient.

## TRADE CONDITIONS STILL IMPROVE

Volume of Business Has Not Expanded in Proportion to Expansion of Confidence.

## MANUFACTURERS RESUMING

Number of Unemployed Slowly but Steadily Diminishing—Railway Demands Increasing.

New York, Sept. 18.—Dun's Weekly Review of Trade tomorrow will say:

Gradual improvement in the commercial situation is encouraging, although the volume of trade has not expanded in proportion to the growth of confidence. Resumption of work at manufacturing plants is the best evidence of progress, the number of unemployed steadily though slowly diminishing. Steel mills have more business in sight, although it is believed that many large undertakings will not be closed until after the election. Plans are numerous, however, and much of the contemplated work will materialize. A current factor of value is the increased demand by the railways for both rolling stock and equipment. The market for hides is regular, with country hides notably quiet.

## A TRAVELING MAN RECEIVED THE THANKS OF EVERY PASSENGER IN THE CAR.

"I must tell you my experience on an eastbound Q. R. & N. train," writes Sam A. Garber, a well known traveling man. "I was in the smoking department with some other traveling men when one of them asked me to get up and come back and said, 'Tricked a woman sick until death in the car.' I at once went up and found a man lying very ill with cramp colic, so bad, in fact, that I was almost afraid to take the risk; her hands and arms were drawn up so you could not straighten them, and with a death-like look on her face. Two or three ladies were sitting with her and giving her whiskey. I went to my suitcase and got my bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I never travel without this bottle of the medicine. In the double dose of the medicine in the glass poured some water into it and stirred it with a pencil; then I had quite a time to get the ladies to let me give it to her, but I succeeded. I could at once see the effect and I worked with her, rubbing her hands, and in twenty minutes I gave her another dose. By this time we were nearly at the next station where I was to leave the train. I gave her the bottle to take home, and when in case another dose should be needed, but by the time the train ran into Le Grand, she was recovered and received the thanks of every passenger in the car." For sale by all druggists.

## BUSINESS NOTES

Another quiet week has characterized the local stock list, and not many transactions are recorded. Brokers state, however, that the steady decline in mining stocks has turned investors' attention to the regular dividend payers in the commercial list. Sugar stocks again led in most of the dealings, and continued activity is looked for as the factories make their records. Ogden and Lehi are already at work, and the others will fall into line almost daily from now to Oct. 1. Utah-Ideco preferred will be quoted ex-dividend after today, the regular quarterly dividend of 1 1/2 per cent on the preferred stock being payable Sept. 30. The last transactions were at \$9.10. ## LIFE INSURANCE

(All questions relating to life insurance will be promptly answered by the Press-Bureau of the Utah Association of Life Underwriters, Address P. O. Box 124, Salt Lake City, Utah.)

Minersville, Utah Aug. 22, 1908.—The Life Underwriters association, Salt Lake City, Utah. Gentlemen: I take the opportunity to write you as I am desirous of information as to the standing of the Great Western Life Insurance company. I have a special policy which costs me \$100 a year and would like to know whether it is safe or not as my premium falls due in a few days.

Hoping you will give this your attention, I am, Very truly yours,

Answer: We append the following special dispatch from Kansas City which partially explains the many troubles of the Great Western Life. You must use your own judgment in paying money into such a concern, which from all indications, is hopelessly insolvent.

"Kansas City, Sept. 3.—Judge Pherson of the federal court at Kansas City, has ordered the liquidation of the affairs of the Great Western Life, now in the hands of a receiver, by dissolving the receivership and turning the company over to a re-organization committee, representing part of the holders of stock and annuity certificates. The Missouri insurance department has protested against the court's action, holding that the company is more deeply involved than before, \$460,000 being required to allow the company to resume business."

## The Cheapest Fat Reducer Is the Best.

The attention of all who are half choked and generally bedeviled by an excess of fat which, by the way, always seems to move excessively, during the sultry season than any other, is called to the Marmola Prescription Tablets. Seventy-five cents secures enough of these remarkable fat reducers from any druggist to last you a good while. In fact, it buys an extra large case. This is enough to make a very desirable change in almost anyone's weight. Taken one after each meal and at bedtime the loss of as much as a pound of fat a day has been attained innumerable times. This is a royal result that seems all the more remarkable when it realizes these tablets are cheaper by half than anything else your druggist has. But the next best thing about it is not the only good feature of these tablets. They are pleasant to take; don't disturb the stomach; don't require one to exercise a particle or diet a mouthful, and last, but not least, do not cause wrinkles. They reduce one quickly but evenly—naturally. They produce, in short, the identical results of the famous Marmola Prescription, with which they are identical in composition. Try a case. If your druggist is sold out then write the makers, the Marmola Company of Detroit, to send you one by mail.

Nearly \$4,000,000 of the company's business has passed since the trouble began. It is possible that a state receiver may now be asked for it.

Fitzgerald Improving—F. V. Fitzgerald, the newspaper man who has been down with a severe attack of typhoid, is reported to be doing splendidly at the Holy Cross hospital. "Fitz" is one of the most popular newspaper boys in the city, and the news that he is more than holding his own now will be good news to hundreds.

## Beauty and Bad Breath

Cannot Go Together No Matter How a Woman May Try to Make Them.

It does not matter how beautiful a woman may be, if she is afflicted with bad breath she will be shunned and plied by the men and even women will studiously avoid her.

If any woman doubts this statement let her make a point of asking a friend in whom she may confide, a man friend or relative. If he is honest he will tell her that foul breath from the mouth of a woman will drive men from her more rapidly than any other personal affliction.

Foul breath arises in man disgust and where this quality is brought into play no amount of self-denial or reasoning can overcome the natural repugnance which comes to man when he is in company with a woman whose breath is not true in so great a degree in men. Women are looked upon as the incarnation of sweetness, breeding, virtue and refinement. Foul breath will sicken a man so that he cannot feel for such a woman a companionship necessary to make him desire to be in her company.

There is absolutely no occasion for bad breath in either men or women. Charcoal, the strongest absorbent known, when taken into the stomach, will prevent this repugnant tendency or affliction.

Stuart's Charcoal Lozenges are sold in tremendous quantities all over America and Canada. They cure and have cured all forms of bad breath. A single box will convince you of this fact. One should eat some of these lozenges after each meal and upon retiring. You might eat fifty of them without harm. They are not medicine, but pure willow charcoal mixed with sweet honey to make them palatable and compressed into a lozenge to preserve their peculiar and lasting strength.

The next time you wish to go into company and don't want your foul breath to humiliate you, eat several of Stuart's Charcoal Lozenges and your breath will be pure and sweet.

Every druggist carries them, price 25 cents, or send your name and address and we will send you a trial package by mail free. Address F. A. Stuart Co., 200 Stuart Bldg., Marshall, Michigan.
